

Project GHG forum

Supporting the industry to meet ambitions on Greenhouse Gas emissions.

Wednesday 10 April 2024

Papendrecht, Netherlands

Join us for a vital industry conversation on GHGs at our one-day Secretariat-led event, as part of our **Project GHG campaign**.

The forum will explore the changing legal and tax environments, shifting client expectations, and create a vital space for industry debate on the solutions we will need to develop – including alternative fuels, battery operated vessels, and port infrastructure.

It will also showcase inspirational best-practice from Members.

Whether business decision maker or technical lead, attendance is essential.

ProjectGHG Forum is kindly hosted by IMCA Board Member **Boskalis**.
